A Mistake.

The impression appears to prevail among many Democrats that we have no Job Office connected with the SEN-TINEL office. This is a mistake. There is no office in the city that is so well prepared to do all kinds of BOOK AND JOB PRINTING as we are (except large bill posters), and we will feel under obligations to all Democrats, not only in the city, but in the State, for any work they can send to our office. We have no public patronage to depend on to aid the paper-we ask the party to aid us with army of McClellan began to be clearly defined, their work, as far as they can. We can do as good work, and people could attend to their ordinary vocaand on as good terms, as any other office.

MASS CONVENTION

Conservative Citizens of Indiana, TO CONSIDER THE CRISIS OF THE COUNTRY.

In compliance with the generally expressed wish of the Democracy of Indiana, the true friends of Constitutional Liberty, the Damo ratio State Central Committee invite the people of the State, without regard to past party affiliations, who desire to "preserve the Constitution as perfine State; \$4 80@4 90 for extra State;

MASS CONVENTION Indianapolis, on Wednesday, the

30th day of July. The object in assembling the people at this time is to take into consideration the new issues which have recently been forced upon the country by the party in power-measures which have no warrant in the Constitution, and which are opposed to the spirit and purposes of our institutions: waile, in the language of President Polk, "war exists," to insist that its prosecution shall be confined to the policy solemaly set forth by Congress in July, 1861, that it is "not waged in the spirit of conquest or subjugation, nor for the purpose of overthrowing or interfering with Hill recited Bingen on the Rhine well. He is a the rights or institutions of the States, bu, to defend and maintain the supremacy of the Constitution, and to preserve the Union with all the dignity, equality and rights of the several States unimpaired," and to assure the Administration that a generous support will be given it, as the representative of the Government, in all necessary, prompt, and vigorous measures to overthrow The Hannibal & St. Joseph R. R. Co. armed rebellion against the Union, to sustain its legitimate authority and crush out Aboli tionism, which is equally hostile to the Constitution as Secessionism.

> The Committee are impressed with the necessity of the People assembling en masse at time proposed, for the following reasons:

1. The Administration, Congress and a recently so-called "Union" Convention held in this State, have failed to announce what are the legitim ite and appropriate means to put down the rebellion, and one and all have refused to even censure, much less condemn the disunion schemes of the Abolitionists

2. The so called Republican-Union Convention failed to repudiate the gross frauds and corruptions proven upon the party in power by Congressional investigating committees of its own appointment:

3. Congress has adopted measures, such as the abolition of slavery in the District of Columbia, which, if constitutional, are ill-timed and unnecessary and calculated to create distrust in the minds of the loyal citizens of the border slave States, and the country generally, as to the designs of the Administration;

4. It has proposed to tax the people of the whole Union to pay for the slaves that States may see proper to emancipate, thus throwing additional burdens upon the productive industry of the non-slaveholding States, at a time, too, when every interest is called upon to contribute all in its power the means necessary for the prosecu-

5. It has encouraged wild schemes of negro philanthrophy; establishing free schools for the education of the blacks, supporting runaway negroes in Idleness, and in agricultural experiments with negro labor, all at the expense of the

6. And in proposing and adopting general schemes of emancipation and confiscation, in clear violation and derogation of the Constitution, inconsistent with the declared policy of the Government solemaly set forth by Congress in July 1861, against the dictates of humanity and sound political economy, thereby "impairing the dignity, equality and rights of the several States."

In order that the People, the source of power weeks ago from Missouri with a physical system | in all constitutional governments, who sincerely desire to perpetuate the Union, as founded and administered by our patriotic fathers, may have the opportunity to condemn these unconstitutional measures; to express their sympathy and their determination to support the Administration in every legitimate effort to crush out treason, "where'er it may rear its head;" to "defend and maintain the supremacy of the Constitution,' and to uphold the rights and institutions of all the States unimpaired; to say to those in authority, the servants of the people, what are the legitimate and appropriate means to put down this rebellion; to condemn fraul and corruption and all unconstitutional, illegitimate and unnecessary measures, calculated to weaken instead of strengthening a love and respect for the Union; to restore a wise, just, pure, equal and beneficent ad ministration of the Government, such as the people desire; and to renew the pledge made by the last Democratic State Convention in behalf of the Democracy of Indiana, "That we will sustain, with all our energies, a war for the maintenance of the Constitution, and of the integrity of the Union under the Constitution; but we are opposed to a war for the emincipation of the negroes, Democratic State Central Committee, now ask
